

Kia Pregio Tube Spacer Fitment

KYB Shock Absorbers Australia would like to advise on the correct installation procedure of Part Number **341247** for all **Kia Pregio Vans** manufactured between **07/2002 – 11/2005**.

When installing KYB Part Number 341247 into the front of the Kia Pregio Van, the installer must pay particular attention to the Mounting Tube Spacer (OE Supplied). This Mounting Tube Spacer has a very snug fit on the **Lower Piston Rod Spigot*** and in some instances must be forcefully tapped down (Please refer to Figure 1). When correctly assembled the Mounting Tube Spacer must bottom out on the piston rod shoulder (Please refer to Figure 2).
